POSITION

-8.4330, 119.5780

Approximate position: no GPS fix was logged for this dive.

This site's identity is uncertain — Anderson's own log notes they went to the wrong site by accident — though the dive itself featured an 8-foot manta, a nurse shark, whitetips, and terrain like hiking underwater. No coral-cover measurement exists, and the recorded position should be treated as approximate.

Bahasa Indonesia. Identitas lokasi ini tidak pasti - catatan log Anderson sendiri menyebut mereka tidak sengaja pergi ke lokasi yang salah - meskipun penyelamannya sendiri menampilkan pari manta sepanjang 8 kaki, hiu perawat, hiu sirip putih, dan medan yang seperti mendaki di bawah air. Tidak ada pengukuran tutupan karang, dan posisi yang tercatat harus dianggap perkiraan. *Terjemahan ringkasan ini oleh AI; versi bahasa Inggris yang berlaku.*
