POSITION

**-8.5750, 119.6600**

A Komodo manta cleaning station visited three times, with 6-30 mantas per dive but unimpressive coral ground of broken *Acropora* and soft coral on rubble. Away from the station, through the fastest current Anderson had felt in years, lay pristine reef with monster cuttlefish, an enormous *Euphyllia*, a white frogfish, and many coral species he had never seen before.

**Bahasa Indonesia.** Stasiun pembersihan pari manta di Komodo yang dikunjungi tiga kali, dengan 6-30 ekor manta per penyelaman namun dasar karang yang kurang mengesankan berupa patahan *Acropora* dan karang lunak di atas pecahan karang. Jauh dari stasiun tersebut, melewati arus terkencang yang pernah dirasakan Anderson dalam beberapa tahun terakhir, terhampar terumbu yang masih perawan dengan sotong raksasa, *Euphyllia* berukuran luar biasa, ikan kodok putih, dan banyak jenis karang yang belum pernah ia lihat sebelumnya. *Terjemahan ringkasan ini oleh AI; versi bahasa Inggris yang berlaku.*
