POSITION

3.5000, 72.8500

Approximate position.

A pin off Maamigili at the southern end of Ari Atoll, with no photographs or survey of its own. Fourteen Reef Check station-year means within 10 km (2011-2025) range eightfold, from 7.8% to 63% coral cover, straddling the 2016 mass bleaching, so no single nearby number represents this reef.
